

AeroPro® Delivers Prophy Peace of Mind!

Great Ergonomics, Less Aerosol

AeroPro®

The new prophy standard your practice needs

AeroPro's light-weight, ergonomic cordless and pedal-less handpiece gives you the mobility you want, the choice of prophy angles you like, and the control you need. Fully CDC-compliant, AeroPro's programmed speeds effectively polish teeth yet generate less volume of aerosol, less aerosol spread, and less splatter vs. other leading brands according to a recent UCI study.* Why risk over-spinning with a rheostat-driven handpiece?

AeroPro's innovative ergonomic design helps reduce hand fatigue by allowing you to rotate the angle 360° for improved intraoral access and comfort. Its quick-touch button enables fingertip control for easy switching between low and high speeds. Its quiet yet powerful motor maintains a consistent speed during polishing—no extra pressure required. ChargeSMART™ Battery Technology gives you long-lasting power to get through the workday.
